DIG INTO OUR METHODS 🐾

Dog Training Services

Whether you need help with a behavior problem or just want to review the basics, we've got you covered.

PRIVATE TRAINING

Dog training is hard, but we make it easy! We provide jumpstart day training sessions in your home to give your dog stimulation, exercise, and a whole new skill set while you work (or play). Get the well-behaved dog of your dreams with one of our day training packages.

GROUP CLASSES

If your dog needs to practice focus and self-control in the face of distractions, ask us about Control Unleashed. It's a small group class perfect for shy, reactive, or out-of-control dogs who might benefit from a controlled group environment.

NOSE WORK

Teach your dog to follow their nose with our in-person or virtual Nose Work classes. Nose Work is a fun, exciting dog sport that anyone can join. It's a fantastic outlet for extra energy in active dogs and builds confidence in shy or fearful dogs. Dogs and owners of almost any age or ability are welcome.
